GIGANTIN BIO

Commercial offer for Philippine buyers

Issued 30 September 2026 | Produced in Primorsky Krai, Russia

Gigantin Bio is a pelletized fertilizer made from chicken manure and produced by Ussuriyskaya Poultry Farm LLC. The commercial terms below are for an initial supply to the Philippines.

Commercial terms

TERM	OFFER
Price	**USD 100 per metric tonne, EXW** at the producer's facility. The price includes 25 kg manufacturer-branded bags.
Estimated 40HC load	Approximately 25.5-25.8 metric tonnes net. Indicative goods value: USD 2,550-2,580 per container, based on final net weight.
Minimum order	One 40HC container.
Packaging	25 kg bags with the manufacturer's design. Vietnam-specific label content will be removed for the Philippine version.
Payment	50% advance and 50% against the draft bill of lading, based on the supplier's established Vietnam terms. Final wording will be stated in the sales contract.
Price outlook	The supplier expects no price revision through 31 December 2026. Price to be reconfirmed when the order is placed.
Not included	Inland transport, ocean freight, Philippine import clearance, duties, taxes and local product registration.

Product details

Form Pellets	**Granule size** Approx. 5 mm diameter x 10-12 mm length	**Russian HS code used previously** 3101000000; Philippine classification to be confirmed
Reference analysis (2026) N 4.7% | P 2.4% | K 1.9%	**Organic matter** 57.2%	**Moisture and pH** 13.4% | 8.1

Reference values are from the manufacturer's 2026 Russian laboratory reports. N, P and K are reported as elements. Composition can vary between batches; a batch-specific Certificate of Analysis will confirm the shipment values.
