

GIGANTIN BIO

Commercial offer for Philippine buyers

Issued 30 September 2026 | Produced in Primorsky Krai, Russia

Gigantin Bio is a pelletized fertilizer made from chicken manure and produced by Ussuriyskaya Poultry Farm LLC. The commercial terms below are for an initial supply to the Philippines.

Commercial terms

TERM	OFFER
Price	USD 100 per metric tonne, EXW at the producer's facility. The price includes 25 kg manufacturer-branded bags.
Estimated 40HC load	Approximately 25.5-25.8 metric tonnes net. Indicative goods value: USD 2,550-2,580 per container, based on final net weight.
Minimum order	One 40HC container.
Packaging	25 kg bags with the manufacturer's design. Vietnam-specific label content will be removed for the Philippine version.
Payment	50% advance and 50% against the draft bill of lading, based on the supplier's established Vietnam terms. Final wording will be stated in the sales contract.
Price outlook	The supplier expects no price revision through 31 December 2026. Price to be reconfirmed when the order is placed.
Not included	Inland transport, ocean freight, Philippine import clearance, duties, taxes and local product registration.

Product details

Form	Granule size	Russian HS code used previously
Pellets	Approx. 5 mm diameter x 10-12 mm length	3101000000; Philippine classification to be confirmed
Reference analysis (2026)	Organic matter	Moisture and pH
N 4.7% P 2.4% K 1.9%	57.2%	13.4% 8.1

Reference values are from the manufacturer's 2026 Russian laboratory reports. N, P and K are reported as elements. Composition can vary between batches; a batch-specific Certificate of Analysis will confirm the shipment values.

Supplier information

Monthly capacity	Export history	Russian registration
Up to 600 metric tonnes	Shipments to Vietnam	No. 4203, valid through 2033

Philippine registration is not yet completed. Commercial import and sale are subject to the applicable FPA requirements and approvals. The EXW price does not include local registration or import charges.
